

You are here: [Getting Started](#) > System Requirements

SYSTEM REQUIREMENTS

The following table lists the minimum system requirements for using the Travelport Online Booking system:

Minimum system requirements:

REQUIREMENT	DETAILS
Operating system:	Microsoft Windows 98 or higher
Internet Browser:	Microsoft Internet Explorer 5.0 (with 128-bit cipher strength encryption package) or higher
	-OR-
	Netscape Navigator 7.0 or higher

IMPORTANT

Because the Travelport Online Booking system uses SSL encryption to protect your personal information, other browser versions are not recommended or supported for use with the Travelport system. Similarly, Macintosh computers are not currently supported.

Although the Travelport system functions correctly when you use a computer that merely meets the minimum system requirements, the system performs much better if you use a newer computer with more recent software. The following table lists the recommended system requirements for using the Travelport Online Booking system:

Recommended system requirements:

REQUIREMENT	DETAILS
Operating system:	Microsoft Windows 2000 Service Pack 4 or higher
Internet Browser:	Microsoft Internet Explorer 5.01 or higher
	-OR-
	Netscape Navigator 7.0 or higher
